

cat kitten care quick pdf

Cats are highly territorial and secreting odors plays a major role in cat communication. The nose helps cats to identify territories, other cats and mates, to locate food, and for various other causes. A cat's sense of smell is believed to be about fourteen times stronger than that of humans.

Cat anatomy - Wikipedia

The cat (*Felis catus*, or *Felis silvestris catus*, literally "woodland cat"), often referred to as the domestic cat to distinguish from other felids and felines, is a small, typically furry, carnivorous mammal. It is often called house cat when kept as indoor pet or feral/feral domestic cat when wild. It is often valued by humans for companionship and for its ability to hunt vermin.

We give Friskies Cat Food a very low rating for its lack of quality protein and inclusion of cheap fillers. A quick look at the ingredient lists reveals that corn and corn gluten meal are the first two ingredients in many of the formulas. Corn is very hard for cats to digest, and contains little nutritional value. In addition, many cats are allergic to corn.
