

birds and their nests pdf

Edible bird's nests are bird nests created by edible-nest swiftlets, Indian swiftlets, and other swiftlets using solidified saliva, which are harvested for human consumption. They are particularly prized in Chinese culture due to their rarity, supposedly high nutritional value, and flavour. Edible bird's nests are among the most expensive animal products consumed by humans, with nests being ...

Edible bird's nest - Wikipedia

A passerine is any bird of the order Passeriformes, which includes more than half of all bird species. Sometimes known as perching birds or “ less accurately “ as songbirds, passerines are distinguished from other orders of birds by the arrangement of their toes (three pointing forward and one back), which facilitates perching. With more than 110 families and some 6,409 identified species ...
