

carpentry and interior finish pdf

Carpentry is a skilled trade in which the primary work performed is the cutting, shaping and installation of building materials during the construction of buildings, ships, timber bridges, concrete formwork, etc. Carpenters traditionally worked with natural wood and did the rougher work such as framing, but today many other materials are also used and sometimes the finer trades of ...

Carpentry - Wikipedia

A joiner is an artisan who builds things by joining pieces of wood, particularly lighter and more ornamental work than that done by a carpenter, including furniture and the "fittings" of a house, ship, etc. Joiners may work in a workshop, because the formation of various joints is made easier by the use of non-portable, powered machinery, or on job site.

Joiner - Wikipedia

A Careful Drawing. I started with a very carefully drawn plan in SketchUp, with no idea what the rough opening would be until I finished the drawing. The only thing I knew for sure was that I had to use 2/8 doors. I could have made the opening wider by using 3/0 doors if I had the wall space, but I wanted to save wall space inside the cabin for the wood stove and some furniture.
