Obesity is a growing problem, rivaling world hunger in the number of people that suffer from it. Obese people were thought to be mainly the rich, but poor people can also suffer as the food industry supplies cheaper food of poorer quality. The food industry are reluctant to take too many measures that could affect their bottom line, preferring to blame individuals instead.

Parasitic infection or infestation can occur in children of all ages. Infants, toddlers, and very young children in day care settings are at risk for the parasitic disease called giardiasis that causes diarrhea and is spread through contaminated feces. Pinworm infection (enterobiasis) also occurs among preschool and young school-age children. Both preschool and school-age children can become ...
