Selective exposure is a theory within the practice of psychology, often used in media and communication research, that historically refers to individuals' tendency to favor information which reinforces their pre-existing views while avoiding contradictory information. Selective exposure has also been known and defined as "congeniality bias" or "confirmation bias" in various texts throughout ...

Textbooks say that the moon was formed after a Mars-size mass smashed the young Earth. But new evidence has cast doubt on that story, leaving researchers to dream up new ways to get a giant rock into orbit. On Dec. 13, 1972, Apollo 17 astronaut Harrison Schmitt walked up to a boulder in the moon's ...

What is Narrative Therapy? A Definition. Narrative therapy is a form of therapy that aims to separate the individual from the problem, allowing the individual to externalize their issues rather than internalize them. It relies on the individual's own skills and sense of purpose to guide them through difficult times (McNabb, 2017).

Ideas for Reflection Reflection can happen in the classroom, at the community organization, or individually

through course assignments. There are a wide range of meaningful reflective practices and strategies that can be incorporated into service-learning, including the frequently used approaches listed below.

### **Reflection - community involvement and service-learning**

Few thinkers have shown to be as capable as Barry Buzan of continuously impacting the direction of debates in IR theory. From regional security complexes to the English School approach to IR as being about international society, and from hegemony to securitization: Buzan's name will appear on your reading list.
