The latest trend in textbooks is "open textbooks." An open textbook is a free, openly licensed textbook offered online by its author(s). According to PIRG, a number of textbooks already exist, and are being used at schools such as MIT and Harvard. A 2010 study published found that open textbooks offer a viable and attractive means to meet faculty and student needs while offering savings of ...

Algebra (from Arabic "al-jabr", literally meaning "reunion of broken parts") is one of the broad parts of mathematics, together with number theory, geometry and analysis. In its most general form, algebra is the study of mathematical symbols and the rules for manipulating these symbols; it is a unifying thread of almost all of mathematics. It includes everything from elementary equation solving ...
