Simulation of Communication Systems (Applications of

Implement a complete simulation chain of the basic realization of the communication system in MATLAB and adjusts and adapts to the basic parameters of the basic blocks within a complex system - Present and interpret the results of a simulation of communication systems in MATLAB 3. Course content/structure: Getting to know your subject.

Modeling and Simulation of Communication Systems EK203

KEY FEATURES • A complete description of the MATLAB and Simulink digital communication system simulation environment suitable for undergraduate and graduate students and professionals • Describes the analysis and design of modern digital communication systems with noise

Digital Communication Systems Using MATLAB® and Simulink®

The Communication Systems Simulation Laboratory (CSSL) is used for modeling and simulation of both proposed and actual spacecraft communication systems, subsystems, components, and parts. The laboratory hosts high-fidelity computer models of communication systems, detailed
