barriers can develop. Therefore in Heidelberg the physics faculty has offered to physics beginners, since many years during the two weeks prior to the start of the first lectures, a crash course in form of an all-day block course. I have given this course several times since 84/85, with listeners also from other natural sciences and mathematics ...

MATHEMATICAL PREPARATION COURSE before studying Physics

Modern physics - as the systematic study of nature based on observation, experimentation, reason and mathematical analysis - had its beginnings in the 1600s with the work of Galileo Galilei and Isaac Newton.

marily physics students but also some from other branches of the physical sciences. The courses aim to introduce students to some of the mathematical methods and concepts that they will find useful in their research. We have sought to enliven the material by integrating the mathematics with its applications.
